Dear Anthony,

A thank you note is better late than never.

I shall not go on and give excuses for my tardiness, but I just want to say thank you for presenting such an informative and interesting lecture to our Garden Club and Master Gardeners in October. It was great!

You and your assistants were right on the mark and addressed all of the areas that the students needed to learn about. Thanks to you, the students learned so much, and in reading their evaluations of the course, they enjoyed your segment. Hopefully, you too, had a positive experience.

In response to your request for future presentation possibilities, I went through my list of clubs that had members in attendance and might have an interest in grass alternatives.
