TO WHOM IT MAY CONCERN

My name is Joseph J. Grano, Jr. I am currently the Chairman and CEO of Centurion Holdings LLC, Ecological LLC, and Visible Technologies. I was previously Chairman and CEO of UBS PaineWebber, a global financial services firm.

I have been a client of Back to Nature, a land planning firm, that is owned by Anthony Sblendorio. He and his staff designed and implemented an ecological, sustainable land plan for my home in New Vernon, New Jersey. Throughout the planning and execution process I was totally impressed with their commitment to preserve open space, their storm water management system, their wildlife habitat restoration plan and their integration of beautiful, English style gardens. I must admit that Anthony even convinced me to install a geothermal heating system in my new home.

I submit for your 2012 "Person of the Year" the nomination of Anthony Sblendorio. Anthony has more than 13 years of experience in the creation of exquisite landscapes that combine inspired site design with the values of regenerative principles. He is a certified Landscape Architect and LEED Accredited Professional. He has won awards for green development in Fern Valley from the New Jersey Chapter of the American Society of Landscaped Architects and the Hunterdon County Planning Board.

I believe him to be a leader as well as an innovator in the pursuit of sustainable, environmental development. Because I am so convinced by his abilities, I have recently founded a new company, named Ecological, and have selected Anthony to be its Co-CEO. Ecological's mission is to change the way people view and approach real estate development by making ecologically inspired development the standard for solving our environmental needs while strengthening communities socially and economically.

Thank you for considering Anthony Sblendorio for your "Person of the Year" award.

Respectfully submitted,

Joseph J. Grano, Jr.
